Instruction for instructor

Step one: Creating a Gmail Account:

1. 1. If you already have a Gmail account, use that. Otherwise Go to [www.gmail.com] (https://www.gmail.com).

2. Once you've created your Gmail account, you can use it for other services like GitHub and Streamlit.

Step two: Creating a GitHub Account:

1. Go to [www.github.com] (https://www.github.com).

2. Click on "Sign up" to start the registration process.

3. Fill in your personal information, including your username, email address (use the Gmail address you created earlier), and a secure password. Follow the on-screen instructions to complete the registration.

4. After creating your GitHub account, you can proceed to fork the repository.

Step three: Forking a GitHub Repository:

1. Go to the repository you want to fork: https://github.com/AqlanLabRepos/ibike.

2. Click the "Fork" button on the top-right corner of the page.

3. This will create a copy of the repository in your GitHub account.

Step four: Creating a Streamlit Cloud Account:

1. Go to www.streamlit.io.

2. Click on "Get started for free" to start the registration process.

3. Fill in your personal information, including your name, email address (use the Gmail address you created earlier), and a secure password. Follow the on-screen instructions to complete the registration. You may also use newly created GitHub account to make this account.

Step five: Deploying a Streamlit App:

1. Go to streamlit.io/cloud and ensure you are logged into your new account.

2. Press "Get Started" to go to the main menu.

3. Click on "New app" to create a new app.

4. In the "Deploy details" section, provide the following information":

- For "Repository," paste the GitHub URL of the forked repository: `https://github.com/YourGitHubUsername/ibike` (replace "YourGitHubUsername" with your GitHub username).

  - For "Branch," enter "main."

  - For "Main file path," enter "ibike.py."

5. Click "Deploy."

6. Streamlit will start building and deploying your app. This may take a few minutes.

7. Once deployed, you will see the app in your Streamlit Cloud account.

Step six: Running the Streamlit App:

1. Click on the deployed app in your Streamlit Cloud account.

2. Your app will open in a new tab. Share the URL with players as instructors.

Important Note:

Please refrain from closing the browser, as doing so will result in the termination of the game.

- Instruct players not to close their browsers while playing the game. Closing the browser may terminate the game.
